## **To Easter Breakfast**

The Sandy Point Benevolent Society (SPBS) invites you to its *one-of-a-kind* Caribbean Breakfast feast. Event is scheduled for Saturday March 30<sup>th</sup> at the Holy Nativity Episcopal Church, 3601 Bainbridge Ave. Bonnx, NY.

Patrons are always delighted by the vast spread in menu items offered. Included on the menu for the event is saltfish and johnny cakes and other culinary delights of the islands. The variety of hot porridges and teas offer a special touch to the menu. SPBS is indebted to the vast number of well-wishers who contribute items to this event. Together, we all create a welcome to spring as camaraderie and friendships are renewed. In reflecting and offering his perspective, President Stewart Williams offered "It's a welcome sight to see so many nationals gather after an otherwise cold winter, to participate in fellowship and giving back to their homeland." He said we will serenade with our customary music and hope to offer a new twist to the menu this year.

The SPBS looks forward to the usual strong support from members of the diaspora and other persons to contribute to the success of this annual event.

### **About SPBS**

Sandy Point Benevolent Society is a non-profit US Corporation registered in the state of New York. Since its inception, the SPBS has made meaningful contributions – financial, material and talent to support students, staff and teachers at CEMSS, and covering schools from the St. Pauls to Verchilds. Now renamed Charles E Mills Secondary School, donations to the learning institution have included cash scholarship awards, science and computer equipment, PA system, intercom system, steel orchestra and more.

Over the years the organization has expanded its focus from just the school to any community in St Kitts & Nevis. Such support has included gifts to the Pogson Hospital and support of hurricane relief. Through its many philanthropic activities such as the Annual Awards Dinner and Ball, the SPBS has developed a number of scholarship awards to support the lifelong learning of citizens of St Kitts & Nevis.
